

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

a The Treasury having found it convenient and necessary to re-arrange the classification of the various heads of expenditure from time to time, it has been thought well, as regards previous years, to follow, as far as possible in this return, for the sake of easy comparison, the arrangement at present adopted by that Department. b Previously included under "Official Receiver in Bankruptcy." c Expenditure from 1st July to 31st December. Expenditure for first half of 1896, and for previous years, included under "Registry." d Previously distributed between Lands, Mines, and Public Works Departments.

* Half-year to 30th June. † The expenditure from Loans has been classified in this table under the headings made use of in the Schedules to the various Loan Acts, this being the method adopted by the Treasury. Information as to the total amount actually spent under some headings of Expenditure is consequently not obtainable, certain items being included under the indefinite heading "Development of Goldfields and Mineral Resources." "Electric Telegraphs," and "Water Supply and Sewerage" are probably most affected by this classification.

a. The authorisation given by the General Loan and Inscribed Stock Act, 1884, for the conversion of Debentures is not, of course, restricted to the operations set forth in this Return, which merely shows transactions to 30th June, 1900. Under the provisions of this Act, and the 52nd Vict., No. 29, Debentures representing £870,900, nominal, and distributed over the various Loans as follows, have been converted into 4 per cent. Inscribed Stock:—Loan, 1872, £2,500; Loan, 1873, £24,500; Loan, 1875, £8,400; Loan, 1878, £92,200; Loan, 1881, £101,400; Loan, 1882, £160,500; Loan, 1884, £471,400; the nominal value of the stock thus created being £872,628 10s.

b. Premium on Debentures converted into Inscribed Stock.

c. Discount on Debentures converted into Inscribed Stock.

d. Conversion Expenses.

a. The authorisation given by the General Loan and Inscribed Stock Act, 1884, for the conversion of Debentures is not, of course, restricted to the operations set forth in this Return, which merely shows transactions to 31st December, 1900. Under the provisions of this Act, and the 52nd Vict., No. 20, Debentures representing £370,900 nominal, and distributed over the various Loans as follows, have been converted into 4 per cent. Inscribed Stock:—Loan, 1872, £2,500; Loan, 1873, £24,500; Loan, 1875, £8,400; Loan, 1878, £22,200; Loan, 1881, £101,400; Loan, 1882, £160,500; Loan, 1884, £471,400; the nominal value of the stock thus created being £872,628 10s. b. Premium on Debentures converted into Inscribed Stock. c. Discount on Debentures converted into Inscribed Stock. d. Conversion Expenses. e. Overdrawn.

* Half-year to 30th June. † The expenditure from Loans has been classified in this table under the headings made use of in the Schedules to the various Loan Acts, this being the method adopted by the Treasury. Information as to the total amount actually spent under some headings of Expenditure is consequently not obtainable, certain items being included under the indefinite heading "Development of Goldfields and Mineral Resources." "Electric Telegraphs," and "Water Supply and Sewerage" are probably most affected by this classification.

a. The authorisation given by the General Loan and Inscribed Stock Act, 1884, for the conversion of Debentures is not, of course, restricted to the operations set forth in this Return, which merely shows transactions to 31st December, 1900. Under the provisions of this Act, and the 52nd Vict., No. 20, Debentures representing £370,900 nominal, and distributed over the various Loans as follows, have been converted into 4 per cent. Inscribed Stock:—Loan, 1872, £3,500; Loan, 1873, £34,500; Loan, 1875, £28,400; Loan, 1878, £92,200; Loan, 1881, £81,100; Loan, 1882, £100,600; Loan, 1884, £47,400; the nominal value of the stock thus created being £372,628 10s.

b. Premium on Debentures converted into Inscribed Stock.

c. Discount on Debentures converted into Inscribed Stock.

d. Conversion Expenses.

e. Overdrawn.

[illegible]

* In the case of Ordinary Endowments, the Total Premiums paid, with 4 per cent. compound interest, were reserved.
† The rate of interest assumed in the valuation was 34 per cent. in the case of policies the premiums of which are computed at 31 per cent., and 4 per cent. where premiums are computed at 4 per cent.
‡ In the case of policies the premiums of which are computed at 3 or 34 per cent., the rate of interest assumed in the valuation corresponds with the rate assumed in the premiums.

* In cases where blanks occur the article, if imported, was probably classified under some general heading and not particularly specified.

† The value of dynamite imported during 1896 (£45,399) was accidentally omitted when making up the Return of Imports for 1896. The amount, therefore, is accounted for in the total imports for 1897.

‡ £42,000 out of this amount was, through a clerical error, omitted from the total amount of imports for 1896, and is therefore accounted for in the total imports for 1896.

§ Through a clerical error, £7,090 of this amount was omitted from the total amount of imports for 1896, and is therefore accounted for in the total imports for 1896.

* In cases where blanks occur the article, if imported, was probably classified under some general heading and not particularly specified. † The value of dynamite imported during 1893 (£45,269) was accidentally omitted when making up the Return of Imports for 1894. The amount, therefore, is accounted for in the total Imports for 1897. ‡ £42,000 out of this amount was, through a clerical error, omitted from the total amount of Imports for 1896, and is therefore accounted for in the total Imports for 1894. § Through a clerical error, £7,060 of this amount was omitted from the total amount of Imports for 1896, and is therefore accounted for in the total Imports for 1894.

NOTE.—It will be noticed that in several instances the Departmental totals of Revenue and Expenditure are not identical with the Treasury amounts published under corresponding headings in Part II., Public Finance. In explanation, it must be stated that the figures supplied by the Treasury represent the actual amounts received and expended within the period under review, whilst the Departmental Returns include all amounts directly relating to the transactions of that period, although not collected or not paid until after its expiration.

NOTE.—This table has been compiled with the special object of showing the value of the importations into Western Australia during the last 10 years of such products of the Soil and of Live Stock as could have been produced within the Colony, and to serve as a basis for calculations as to the market reasonably to be expected therein for home-grown products.

PART V.—LAND SETTLEMENT, AGRICULTURE, AND LIVE STOCK.

 NOTE.—This table has been compiled with the special object of showing the value of the importations into Western Australia during the last 10 years of such products of the Soil and of Live Stock as could have been produced within the Colony, and to serve as a basis for calculations as to the market reasonably to be expected therein for home-grown products.

* From 1876 to the beginning of the year 1896 all business relating to Patents was controlled by the Colonial Secretary. † By "The Patents, Designs, and Trade Marks Acts Amendment Act, 1894," the provision existing for the granting of Letters of Registration was repealed. ‡ By the Patent Rules of 1895 the fee payable on application for Letters Patent was further reduced to £3.
 NOTE.—Up to the beginning of the year 1899 the fee for Letters of Registration was £25, and that for Letters Patent £50; these were then reduced to £15 and £4 respectively. In March, 1899, the fee for Letters of Registration was further reduced to £10.

NOTES.—Assisted Schools, etc.—Up to and including 1895, the numbers given are those of the "Assisted" or State-aided Denominational Schools. By the "Assisted Schools Abolition Act, 1895," all grants-in-aid to these were abolished from the 31st December of that year. Thereafter these schools ranked as "Private" schools as distinguished from "State" schools. The figures for 1896 and onwards include all private schools, secondary as well as primary, though one of the former (the Perth High School) is subsidised by the State.

The average attendance, and consequently the percentage of attendance to enrolment at these schools, from 1896, is merely estimated.

State Schools.—For 1898, 1899, and 1900 the percentage of attendance to enrolment has been calculated on the basis of "average attendance" to "average enrolment."

* Bursaries of the value of Ten pounds have been offered to the girls attending the Elementary Schools of the Colony for several years past. In 1895 they were extended to the boys also.

† The examination being similar to that laid down for the High School Scholarships, one of which happened to be vacant, this Scholarship was, in place of the bursary, offered to, and accepted by, the boy who had passed; no bursary was, therefore, actually given.

‡ In 1899, one boy and one girl obtaining equal marks, the prize was divided between them. In the above table each has been credited with winning a bursary.

§ In 1899 and 1900 the bursaries were for boys and girls without distinction of sex.

PART XII.—MISCELLANEOUS.

No. 6.—Rainfall in Western Australia during 1900.

With averages (to the end of 1900) for all stations having at least five years' record. 100 Points=1 inch.
The Sign ... signifies "no rain fell." The Sign — signifies "no record."

NOTE.—The stations are grouped into districts, and these are subdivided into square degrees, which are figured according to the latitude and longitude of the N.W. corner of each square, the first two figures representing the latitude and the last two the longitude, less 100°. Thus Perth is in the square 3118, showing that its latitude is 31° odd minutes, and its longitude 115° odd minutes. The mean rainfall for each square degree is adopted from all the stations situated in that square having complete records for 1900. The average is taken for all years up to and including 1900.
